

2010 NELA Industry Descriptions

Each applicant should apply under **one** industry category. Some individuals will be eligible to fit under multiple categories, but you must choose the category you feel best fits your job responsibilities.

The descriptions below are to be used as a guide to help you choose the best industry for your application and in no way will cause an applicant to be disqualified from the NELAs. The NELA program manager and judging chair of your original industry reserve the right to move your application to another industry. In the event that this happens, the applicant will be contacted immediately.
